

## 1" Tubular Webbing

This 1" tubular webbing is constructed to military specifications 5625 and is made by needle loom construction. Tubular webbing has many uses, including anchor systems, technical rigging, climbing systems, and patient packaging. It takes and holds knots and can also easily be undone even after a great amount of pressure is applied. Allow for up to 3 splices per spool.

**Price:** Regular Price \$0.43 – \$95.00

## Akua Rescue and Dive Knife

Whether you're on a rescue or paddling the river, the Akua rescue knife attaches easily and securely to your PFD, boat deck, BCD, or leg. When the situation arises, quickly release the knife, and cut your way free with the serrated blade. The blunt tip won't puncture inflatables, and works as a screw/pry tip. Be ready with a sturdy cutting tool at your fingertips.

**Overall length:** 5 3/4"

**Blade length:** 3"

**Color:** Green or Black

**Price:** Regular Price \$29.95

## Baker Hanger

Tired of your drysuit or wetsuit taking days to dry? Try this hanger! Save your investment with this unique drying/storage

---

hanger. The large shell style molded shoulders allow air to circulate better—a must for multiple days on the river.

Holds up to 100 lbs.

**Color:** Black

**Price:** Regular Price \$26.99

## Carlson 4-Inch Hand Pump

Every moment counts getting your inflatable craft ready. Carlson hand pumps move a lot of air quickly, saving rescuers effort for the real task at hand. Heavy duty PVC and foam O-rings keep the Carlson 4-Inch in service and the whole pump carries a ten year guarantee. Pump inflates only.

**Pump dimensions:** 4" diameter x 24" high.

**Volume per stroke:** 0.9 gal. (3.5 liters).

**Hose length:** 7'. Weight: 7.3 lbs.

**Price:** Regular Price \$245.00

## Carlson River Rescue Board

The U.S. made Carlson board is constructed of Expanded Polyethylene Beads, so unlike smaller boards with flotation issues, these allow 165 lbs. of flotation and are extremely

---

tough and nonabsorbent. The improved core allows for greater flexibility with less absorption of water. The evolved shape has stayed the same with improved features including four handles for two riders, better brushed belly grooves to grip your body and a new finish on the rails so it glides effortlessly through water.

**Dimensions:** 56" x 24" x 4"

**Weight:** 10.lbs

**Material:** Ethafoam

**Color:** Black/Green

Oversized shipping charges apply; available for shipment to U.S. addresses only (Contiguous 48 )

---

**The use of these boards in rescue situations and recreational use requires training.**

---

**Price:** Regular Price \$399.00

**Cascade Rescue Advanced**

---

## Series Litter Wheel

### **Terrain Master**

The Advanced Series Litter Wheel will saddle virtually any basket style litter. The saddle attaches to the top railing of the litter with four nylon straps – simply hook up and use the ratchet levers to cinch it down. The non-skid surface inside the litter saddle keeps the litter firmly in place. Once your patient is loaded, the wheel assembly locks on in less than two seconds and won't come off unless you unlock it. Constructed of 6061 T6 Aluminum, the Advanced Series Litter Wheels are designed to be packable and durable. Weighs only 31 lbs.

**Price:** Regular Price \$1,095.00

---

## Cascade Rescue Litter

## Flotation System

Designed to fit all Cascade Professional and Advanced Series Litters with Daisy Chain. The system is self-righting, maintaining the litter in a head-high horizontal position for the ease of loading. Capable of floating the litter, patient and at least one rescuer. Easily attached and removed for storage. This Flotation System is ideal for ocean, lake and swiftwater rescue. Will also fit most tube frame litters of other manufacturers.

\* *Litter not included*

**Price:** Regular Price \$384.00
